NEW SEASON STARTS SOON

WHAT IS A LEAGUE?

* The term League really means a social club; one whose main activity is tenpin bowling, not necessarily it's only activity-but it's main one.

* Leagues bowl every week on the same day at the same time, so every member has a regular social occasion on their calendar.

* League affairs are conducted by officers selected by the members, or by bowling centre management and staff. Leagues follow established rules, and can add their own when necessary.

* A League organizes its season so that every team plays every other team at least twice, according to a draw. In this manner, members get to know each other in the nicest possible way—by bowling together. At the end of each season, trophies, prizes etc. are handed out for a variety of awards to members usually at a social evening.

* New members are always welcome in a League, after all— it means new friends for everybody. As all social leagues are handicapped, the lower a bowler's average game, the higher their handicap, so a team's competitive chances are not affected by adopting a new member.

* Finally, don't be worried if your average game is low—you will be surprised to find out how many current members have lower averages and with just a bit of coaching, you will be amazed at how quickly your game will improve.
